# HEALTHY HOMES & LEAD POISONING PREVENTION: A Free Training for Public Health Professionals

This free training is designed to help community health workers, nurses, social workers, and other professionals understand understand the sources, health effects, and solutions for addressing:

- ✓ Lead
- ✓ Mold and moisture
- ✓ Poor indoor air quality
- ✓ Pests and pesticides
- ✓ Home maintenance

**For more information** about the training, contact Neasha Graves at [neasha\\_graves@unc.edu](mailto:neasha_graves@unc.edu) or (919)966-3746.

Participants will receive materials useful for sharing information with families whose health is impacted by home hazards.
