It is important to appreciate each stage as it occurs and provide the support and guidance needed to journey successfully through each one. This training will offer suggestions of what types of materials support learning at the different stages. You will gain insight on the benefits of providing babies with ample time and space to master a skill before moving on to start practicing a new one and will explore some of the drawbacks of intervening unnecessarily. With each mastered skill, babies discover more about their bodies, the world around them, and how the two work together. These skills are the foundations that they will carry with them throughout their lives and across all learning domains. This training provides information that supports the ITERS-R subscales: Space and Furnishings, Activities, and Program structure*
