Stay healthy

Literacy

The ability to read and write, to understand the subtleties of language, to think and reason clearly, and to communicate effectively with others is key to success in school and in life. Researchers have identified a window of time from birth to around age 8 as crucial for a child's development of literacy. Through pictures, play and printed word, preschoolers begin the reading and writing process.

Fee: \$5.00

Contact Hours: 1.0

Playground Safety

This training is the updated version of the North Carolina Playground Safety Training adapted from the 2009 Playground Safety Training created by Dr. Karen DeBord at North Carolina State University. This training continues to reflect Dr. DeBord's vision while also following the Division of Child Development and Early Education (DCDEE) guidelines and requirements that ensure the safety of each child while in an outdoor learning environment. In this revised training, participants will be given up to date content, materials, resources, videos, and pictures that reflect the standards set up by North Carolina and DCDEE.

Cheri Creecy, Technical Assistance and Training Coordinator
Halifax-Warren Smart Start

Saturday February 1, 2025 (In Person)

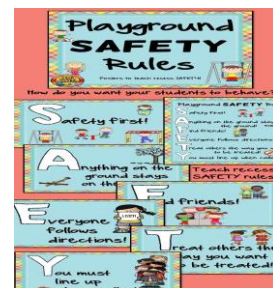

Location: CADA Community Services Center

116 B West Third Street Roanoke Rapids, NC

Time: 9:00 am - 2:00 pm

Fee: \$5.00

Contact Hours: 5.0

Emergency Preparedness & Response

The new Emergency Preparedness and Response (EPR) in Child Care Training provides early educators with information and tools to prepare for many types of emergencies. The EPR in Child Care Training addresses new NC Child Care Rules on emergency preparedness, current best practices, as well as recommendations, and guidance on completing the online EPR Plan. The EPR Plan template can be found on the North Carolina Emergency Management website. NC Child Care Rules 10A NCAC 09 .0607 (b) and 10A NCAC 09 .01705 (b) (6) require that a designated individual from each licensed center and family child care home complete the training and submit a facility EPR Plan.

*Trainer: Cheri Creecy, Technical Assistance and Training Coordinator

Wednesday January 29, 2025 (Virtual)

Time: 6:00 pm – 8:00 pm

Fee: \$10.00

Contact Hours: 2.0

Math

Preschool mathematics activities can be divided into two groups: numerical and measurement. Numerical activities are discrete while measurement activities are continuous. Numerical concepts ask the question, "How many?" and are referred to as discrete quantities because they can be counted. Mathematics during the preschool years should focus on number, geometry, measurement, algebra and patterns, and problem-solving.

Supporting New Parents

Being a parent is one of the toughest and sometimes loudest jobs. No one hands you a magical guide that ensures the perfect childhood from birth-adulthood. As early childhood educators, we can be the best resources for new parents. We can help them get through the bumps in the road and celebrate the milestones. In this workshop, teachers will learn how to support parents through the exciting journey.
